HALCYON RIDGE HEALTH SYSTEM | ENTERPRISE AI ENABLEMENT ADVISORY

Executive Reader's Guide

Navigation for the HRHS case study package

Document	HRHS-AI-00	Version 2.1	November 2026 (supersedes v2.0)	Prepared by: Reginal Campbell, PMP
Audience and purpose	Executive and engineering leaders reviewing the case study. Orient the reader to the scenario, the decision, and the package.
Decision status	Advisory work product (hypothetical). No executive decision has been made. Decision requested at the ELT meeting of December 9, 2026 (scenario date).
Classification	FICTIONAL CASE STUDY. All organizational details, interviews, figures, dates, and findings are simulated scenario data, estimates, or labeled assumptions. No real engagement, approval, or result is claimed. Not a description of any real organization.

The case: an AI opportunity constrained by execution capacity

Halcyon Ridge Health System (HRHS) is a fictional regional system: six hospitals, about 40 outpatient facilities, 14,500 employees, $2.9 billion in revenue, and a 1.2% operating margin against a 3.0% target. Eleven AI use cases are proposed and two pilots are live without enterprise review. FY2027 IT discretionary capacity is 92% committed to ERP, EHR, and network programs.

The decision: how should HRHS approach enterprise AI, and what can it realistically commit to in FY2027? Options: (A) Targeted, Vendor-Led; (B) Governed, Phased; (C) Platform-First. **Central point:** a defensible recommendation is only valuable when leaders understand its tradeoffs and the organization can execute the resulting decision.

Recommended reading order (Version 2.1)

#	ID	Document	Use it to
1	00A	Case Study Overview	Understand the purpose of the case in 90 seconds.
2	Deck	Five-slide executive case study	Discuss the case in 6 to 8 minutes.
3	01	Executive Issue Brief	Grasp the decision in five minutes.
4	03	Strategic Options & Advisory Analysis	Compare options, financials, sensitivity.
5	08	Engineering Portfolio Decision Brief	See a capacity conflict resolved.
6	02	AI Readiness & Current-State Assessment	Review simulated evidence and gaps.
	04	Executive Decision & Authorization Record	See decisions and capacity commitments.
	05	Decision-to-Delivery Execution Playbook	See delivery and engineering coordination.
	06	90-Day Mobilization & Delivery Plan	Review critical path, capacity, gates.
	07	Governance, Risk & Value Realization	See lean oversight and value validation.

External review materials: 00A, the deck, and 00 to 08. Private interview preparation (09) and quality assurance records are kept in separate folders and are not part of the review set.

How to read the evidence

[S] Simulated: a finding within the fictional scenario, not real research. **[E] Estimate:** derived from simulated findings, method shown. **[A] Assumption:** requires validation (A-01 to A-08). **[J] Judgment:** analytical conclusion with reasoning stated. All decisions are hypothetical. IDs (F, GAP, R, D, MC, WS, G0 to G4, L, O) trace across documents.
